TRAIN. RETAIN. GROW.

Industry Consortium for Advanced Technical Training (ICATT) is the leading apprenticeship program for high-tech manufacturers and companies with complex technologies or logistics. It is the largest program fully benchmarked on the German Dual Education System – an approach recognized globally for its combination of company-specific knowledge, theory, and hands-on learning – resulting in highly-trained employees that position companies to embrace technical advances, keep pace with market demands, and harness growth opportunities.

The ICATT Apprenticeship Program is a workforce development strategy – a sustainable solution that builds a loyal workforce, provides a pipeline of talent, and ensures that standards of excellence are met.
The Staggering Price of Vacancy: The Real Cost of Unfilled High-Tech Manufacturing Jobs

Case Study: Richard Wolf Medical Instruments

A Parent’s Perspective on the ICATT Apprenticeship Program
