

ICATT PROGRAM WEB QUEST – WHICH ICATT APPRENTICESHIP PROGRAM IS RIGHT FOR YOU?

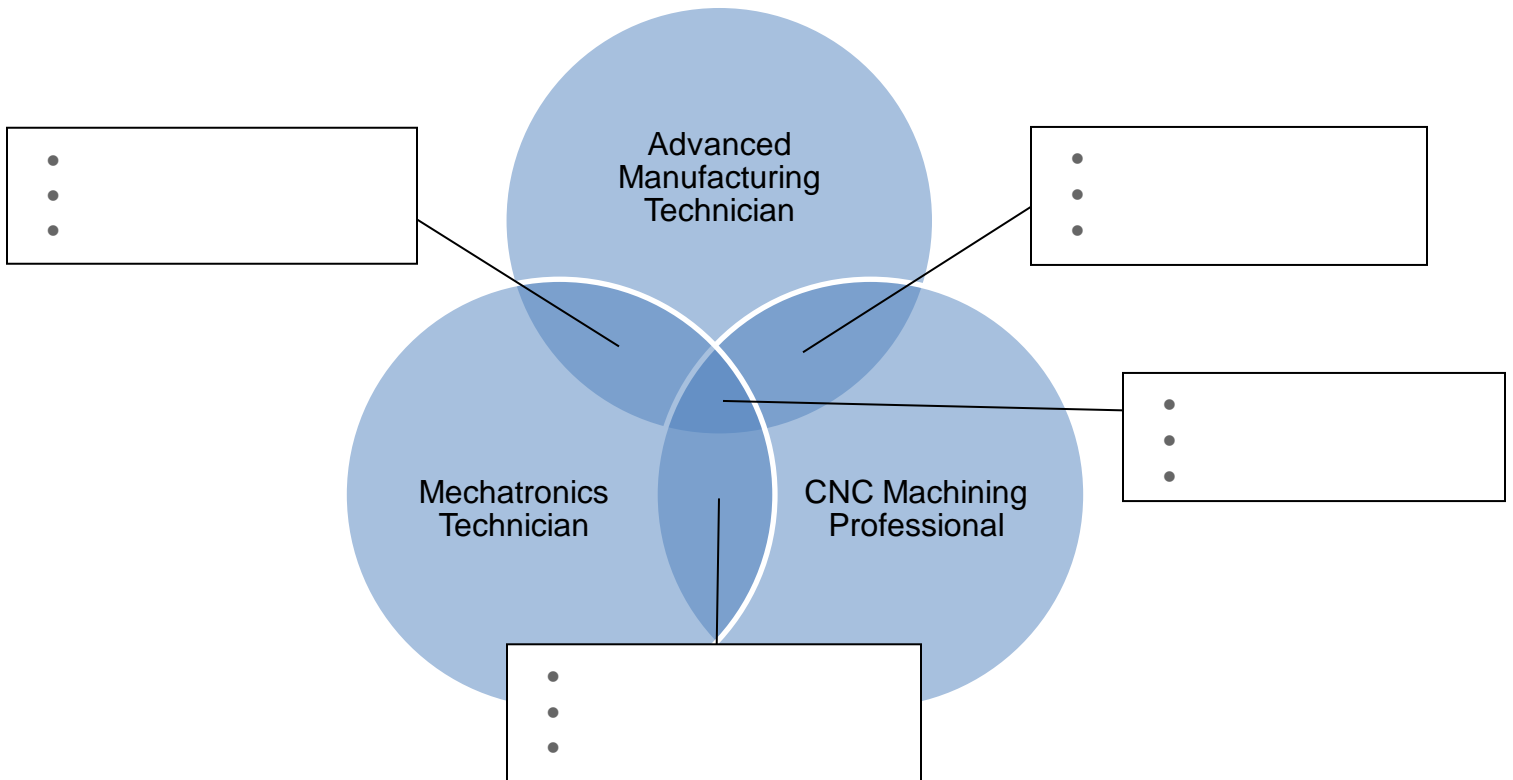

Objective

Learn about the various responsibilities and skills of each ICATT Apprenticeship Program and see which one matches your strengths and ambitions.

1. Read through the descriptions of each apprenticeship profile and summarize the key info below by answering parts a and b below
 - a. Using your own words, describe the roles and responsibilities of each apprenticeship profile

| Apprenticeship Program | Roles and responsibilities |
|---|----------------------------|
| Advanced Manufacturing Technician | • • • |
| Mechatronics Technician | • • • |
| CNC Machining Professional | • • • |

- b. In the Venn diagram below, add the skills relevant to each of the different programs. Some skills may be relevant to more than just one.

2. Look one more time at the different skills you just listed. Do you have any of these skills already? If yes, circle them! If not, circle any skills that you would like to learn!
3. Based on what you have learned so far, which type of apprenticeship might be the right fit for you? Rank them in order of preference (1=best fit). Wherever you put number 1, follow the link to hear from a real person who has succeeded in that apprenticeship profile:

___ Advanced Manufacturing Technician → [Alexis Ojeda](#)

___ Mechatronics Technician → [Christina Schubert](#)

___ CNC Machining Professional → [Thomas Hein](#)

Congratulations! You've just identified a potential career pathway! Save this document for future reference.

Take the next step and [apply](#) (HS seniors and older) or [sign up for more info](#) (underclassmen).
